The Merritt Center, a non-profit organization, offers a free 7-day program, beginning with a welcome-home talking circle: learning about the cycle of life, releasing the experience of war, and creating the dream of a new life. With veteran mentors in group sessions, returning vets will: recognize and release triggers of combat experience and reorder priorities; release the toxins of mind, body, emotions and spirit through a peer created ceremony; have a therapeutic massage or an emotional clearing energy session; and conclude with a graduate celebration.

Funded in part by the Arizona Department of Veterans Services
as made available through the Arizona Veterans' Donations Fund.

Supported by AZDVS
